4. How has this class supported and prepared you for your teaching career?

1	anonymous	It really put things into perspective for me. It is not only my job to teach these kids but make sure that we are all having fun and being culturally responsive. I had a lot of fun in your class David!
2	anonymous	This class supported and prepared me for my teaching career by providing content that was relevant to me. This class built on what I already knew and extended my knowledge to help me understand how to be a culturally relevant teacher and think more about my classroom management.
3	anonymous	I am able to start my teaching career with a great understanding towards reaching a multitude of children and learning how to find a balance
4	anonymous	Yes it has! The classroom management plan was the most beneficial. It'd be nice to talk even more about this and a little less than GRR.

5	anonymous	I learned new information that helped me to grow as an educator, learn to be culturally responsive, and understand the brain better and how that impacts children - and put those ideas into practice.
6	anonymous	This class supported my learning by providing me assignments that were helpful and something I would of had to do before I began my year in the fall. The classroom management plan was super helpful because I didn't feel like I was prepared for that aspect. I was glad to be able to work with others in the class, even on zoom some times. I feel as though I am best prepared by getting my feet wet and actually doing. I am excited for the fall and to use the tools I learned in this class in my own classroom.
7	anonymous	This class has guided me through crucial aspects of my future classroom. I truly feel more prepared to teach now!
8	anonymous	This class supported and prepared me for my teaching career with helping me understand the importance of student voice and students culture. It also showed me how to make sure to differentiate lessons based on my students. This class also really prepared me for lesson planning and the importance of GRR.
